This game is hilarious. Really enjoying the aesthetic and goofy controls... can't wait to try some splitscreen action.. Love this game! Super difficult but really good game. I will beat all of the levels some day... even if I have to use the trike. This is an extremely fun game to spend some of your life on. The price point is low and yet the quality is quite high. I especially like the penguins that are too overweight to stand and therefore just roll around.

If you would like to see how the game plays, you can do so here:

https://www.youtube.com/watch?v=73YVrGvhQ_o&feature=youtu.be. Wow this game is so trippy haha unfortunately i have no friends to play with but its still lots of fun.

<https://www.youtube.com/watch?v=-sXOr7Q4sSE>. Very fun to get better at riding the bikes. Feel like I'm always getting better. Just trying to get in the flow of riding. sometimes I'm there and sometimes I just lose it. Hopefully once I learn I'll never forget.

[Art and music are also fun. Excited to play with friends sometime. been fun solo tho.. A fun party game based around bicycles in a world that gets increasingly trippy the longer you play. There are many modes, such as the standard race to the finish, jousting, catch the bug and many more.](#)

[It's especially fun with some friends, since there are some modes that require additional players.. awesome game! love the trippy graphics, physics, and the sound track! Hello from Green- Theory :\)](#)

Been playing this game in short bursts with my 3 year old son who loves bicycles. It's great silly fun and we laugh and laugh and laugh and honestly it's all just so wholesome and beautiful I could cry. Yes, recommended!
