## About This Game

**Tyr: Chains of Valhalla** is inspired by Norse mythology, more precisely, the Ragnarök! In a technological world where humanity depends on mega-corporations like Yggdrasil, big companies know no limits, competing for the global monopoly, and foes are at the order of the day; someone has to put a balance in the city.

Tyr, creation of Professor Oswald Din, a.k.a. O.Din, has the mission to prevent Lemuz Oki, a.k.a. L.Oki, destroy the world order and create a new realm of chaos to seize the biggest technology company, as well as control the entire world. Tyr, with the help of Huginn & Muninn ("thought" and "memory") and his faithful Sleipnir, he will take the summit of Valhalla to stop the evil plans of L.Oki and his group of vikings & robots.

In a nordic cyberpunk universe where the struggle between big corporations destroys the world as we know it, a hero must bring order in this world. In **Tyr: Chains of Valhalla** you can meet the climax and impetus of the Ragnarök seen from a cyberpunk perspective.

**Tyr: Chains of Valhalla** is a 2.5D shooter/platformer full of power-ups, vikings, robots, awesome and difficult bosses. **Tyr: Chains of Valhalla** combines 3D scenarios and bosses with 2D characters and enemies.

The time is against you! So be quick, accurate and over all, powerful! Free the city of Midgard in this epic adventure through these amazing levels and reach the last mission... Defeat all the bosses at once!

Please don't judge me. It's my little girl whose playing the game not me. I would definitely give this a flaming thumbs down if it weren't for my kid playing this game as I clean our bathroom. The 9 hours is part of my total bathroom cleaning time. 10/10 would have their kids play this as they clean.. This game is cool in that it's a nice attempt to combine 2 good genres into a solid game. Sort of succeeded too but it's still more casual than RPG like and you'll quickly find things to get repetitive. On a much brighter side, it's fun, and will remain fun. Recommended :). Great game, too bad it never finished the scoring and just backs to the title screen without seeing a final score.. Yes, this game needs some more polishing and features. I do think, though, that it is a solid game and jst lacks a lot behind the expectations. The developers seem to understand, that they didn't satisfy their customers and seem to work really hard on fixes. So I'll give it a good review for now, as I believe that the game will improve quite soon and don't think the game is as bad as the reviews at this time would suggest.. Very good game!! \*RESPECT\*

Being trained as a professional Flying Fox at the "Military University of Foxes and Kitsunes" and having 150 confirmed potion victims i can honestly say that this game is one hell of a game.

It is hard, even for me, to roll that constant through the world like those marble like creatures. Trust me, that actually was part of our basic training, they are just too pro for me.

Although it is offered at steam our Scientist team lead by very talented Doges (it is hard to find good quality Fox personal nowadays) has found out that you can actually get the 1.8 release of Gumboy at CNET download legally FOR FREE.  
(source: [Gumboytournament.com](http://Gumboytournament.com))

[It is said that their Headquarter is in the Szech Republic and that their only connection to the glorious Fox connection \(and no, we do not own Fox TV\) does not work for anybody and that the named server probably is almost down. But thanks for everything there is a Campset orderable for free to set up your own Military Base \(server\).](#)

[The commentator of the Game is none other than the famous superstar Squeeky Mc Squeek, also known for one of the voice actors from the Chipmunks Series and many many other quality internet videos. Rumours say, that you can gather the all mighty power of his voice by inhaling Helium. And no: That is not how we Foxes sound.](#)

[One of our researchers has also made a small visit to the culture of the Gumboys. It appears that they like to race against each other who gets the fasted amount of Diamonds and can sell those for 50,100 and 200 Fox\\$ers to our intergalactic Organisation. When they shall not do so, they try to steal the Flagg of their other Nation and bring it to their own Flag. Apparently they do not like each other and have always to show which is the best Nation.](#)

[The Gumboys got named one of the most fabulous Creatures 2006 by the russian dancing men organisation "Gametunnel". We blame the capitalist pig!. As first of i tried this game due the name & the trailer seemed more like a tree simulator. Giving a try is never bad, still a bonsai without wiring? And only tall base is a big no.](#)

[Get real. Buy a bush or tree and train it. Instead of even thinking about buying this game.. This game is beautiful and can be great fun! Works pretty well on the Oculus Touch as well! Personally though, the games movement system gives me nausea and I would prefer a teleport option. The weapons look amazing, but felt weird to hold and aim with touch controllers, probably because I'm trying to hold and aim like a real weapon. An adjustment to the starting angle on the weapons may help this with rift/touch.](#)

[I wont deduct points for my personal level of comfort/discomfort, especially since it's in Early Access and looks gorgeous.](#)

[Either way, I highly recommend as I believe this title will only get better over time.. Game is extremely short, and feels more like a proof-of-concept than a full game. While there are many interesting and cool mechanics, they are only used once and thrown away, such as potion crafting, cooking, and even satisfying swordplay is forgotten about later in the game. The boss fights also resort to basic hit-and-run tactics, and playing ping pong with your sword.. It begun as a very simple and light space tower defense, which was a good time killer.](#)

[And it is, if you play it only until the penultimate mission.](#)

[The last mission is ridiculously unbalanced. Even with a fully upgraded ship and turrets, it's still impossible, really bad game design.](#)

[If you want something to kill some time and you really like the genre, it might be worthy on a sale.](#)
